

Adam Ostrzenski

Howard University, USA

Transition from cosmetic gynecology to modern cosmetic-plastic gynecology: Progress, new discovery and complications

Biography

Adam Ostrzenski, M.D., Ph.D., is an internationally renowned Gynecologic surgeon and a laureate of numerous national and international awards for his contribution to the advancement of women's health and for developing new cosmetic/reconstructive operations for female genitalia. Ostrzenski practices in Florida, United States, and trains physicians in cosmetic/reconstructive gynecologic surgeries, locally and around the globe. He is a former university professor and director of the Division of Gynecologic Surgery. Ostrzenski pioneered new surgical techniques, educational books and published numerous scientific and educational papers in the medical field; most of his scientific clinical publications are related to reconstructive/cosmetic gynecologic surgeries. Ostrzenski received his formal university training in gynecologic surgeries in the United States of America and Europe.
