

# 14<sup>th</sup> Surgical Nursing & Nurse Education Conference

October 10-11, 2016 Kuala Lumpur, Malaysia

## Common ENT emergencies: Tips and tricks

**Sathappan Subramanian**

Cyberjaya University College of Medical Sciences, Malaysia

ENT emergencies are very rare but it is important to recognize the common ENT emergencies. These emergencies can present as a result of infection, trauma, foreign bodies, or post-operative complications. These emergencies need proper clinical assessment and need urgent management. In this lecture, we will discuss the symptoms and signs of common ENT emergencies and appropriate initial management. Hence the junior doctors, nurses and allied health professionals will be ready to face the challenges in management of ear, nose and throat patients in emergency room.
