

**Safe working spaces for fearless working****Virendra Rawat**

Founder of Green Mentors, India

The COVID-19 pandemic continues to evolve, hygiene and infection control audit and germs free certification for all outdoor learning, working, trading, manufacturing, health caring, travelling, staying and eating spaces free from the fear of infections. Everyone in society is eagerly looking for the solutions to respond Covid-19 by making working spaces more safer than ever before.

Hygiene & infection control audit and germs free spaces certification brings power to occupants to learn, work travel, stay and eat safe and fearless environment by making all working spaces clean conducive and virus protected.

Keeping this in mind, green mentors offers hygiene and infection control audit of all working spaces including learning, trading, manufacturing, health caring, travelling, staying and eating spaces to respond the challenges of Covid-19 by offering safe and fearless environment through germs free spaces certification.

Germs free spaces assures every member to learn, work travel, stay and eat Safe with confidence and also assure their families to send their loved one to outdoor space without any fear. Hygiene & infection control audit is a set of hygiene safety and infection prevention indicators for outdoor spaces. Each safety and prevention indicator is in turn measured against a set of objective of global standards for safe working spaces for fearless working.
