Biological systems: Open Access (2329-6577) is growing continuously with 97 potential published articles. It is our pleasure to announce that during year 2019, all issues of volume 08 were published online on time and the print issues were also brought out and dispatched within 30 days of publishing the issue online. Average publication lag time of an article was further reduced to 2-3 weeks.

Biological Systems: Open Access is a peer-reviewed and open access journal with an aim to provide rapid and reliable source of information on current developments in the field of Biological systems. The journal aims to publish the most complete and reliable source of information on the discoveries and current developments in the mode of original articles, review articles, case reports, short communications, etc. in all areas of the field and making them freely available through online without any restrictions or any other subscriptions to researchers worldwide.

All published articles of this journal are included in the indexing and abstracting coverage of Index Copernicus, Google Scholar, Global Impact Factor (GIF), Cite Factor, Electronic Journals Library, RefSeek, International committee of medical journals editors (ICMJE), Hamdard University, EBSCO A-Z, Virtual Library of Biology (vifabio), Studies receiving funding from a funding organization that is included on the list of PMC and Research Funder Policies or authors having NIH grant were submitted to PubMed (PubMed NLM ID: 101568098).

Biological Systems: Open Access also announces its new association with Longdom group for Archiving, Journal maintenance; financial purpose and support. However the journal will be running its original website [BSO](#) parallel for Editorial and review work process so as to maintain its highest standard of scientific work.

Association with Longdom group has increased Readership Metrics (By Google Analytics) of Biological Systems: Open Access which can be accessed at [Google Analytics Metrics for BSO](#)

I take this opportunity to acknowledge the contribution of Editor-in-Chief: Edmund B Rucker (USA), Executive Editors: Hossan M Ashour during the final editing of articles published and the support rendered by the editorial assistants in bringing out issues of BSO in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of BSO, the office bearers for their support in bringing out yet another volume of BSO and look forward to their unrelenting support to bring out the many volume of Biological systems in scheduled time.
