

Market Analysis - Global Conference on Plastic Surgery and Therapy

Shigeru Ohno

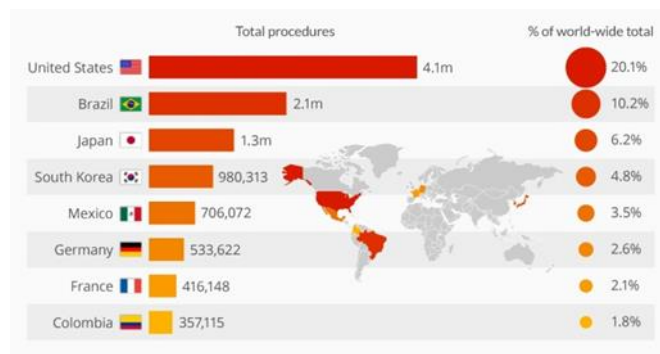

Pulsus conference proud to announce our conference World Conference on Plastic Surgery scheduled to be held on Apr 20-21, 2020 in Tokyo, Japan. It provides a premier knowledge base platform for researchers, practitioners and educators to present and discuss the foremost innovations, trends, and considerations, as well as practical challenges, encountered and solutions adopted within the field of Aging Science and Cosmetology and its connected innovative Science.

When it comes to plastic surgery, the United States is still the country with the most procedures worldwide. In 2014, there were a total of 4.1 million procedures, 20 percent of the world's total, according to data compiled by The International Society of Aesthetic Plastic Surgery (ISAPS). Business is also booming in Brazil and Japan where there were 2.1 and 1.3 million procedures last year respectively.

The country's 900 state-certified plastic surgeons perform about 500,000 procedures a year - more than anywhere else on the continent, according to International Society of Aesthetic Plastic Surgery (Isaps). The industry ranks among the five largest in the world, along with the United States, Mexico, Argentina and Brazil, he said. So-called "plastic surgery tourists" from northern Europe are seeking out discreet retreats on the Costa del Sol or Costa Brava for a new nose or eyelids.

France have been ranked among the top 10 countries with major Plastic surgeries procedure. Presently, Germany holds the biggest market in the European region is owing to the high number of breasts, lip, and eyelid surgery performed in the region. The European Plastic surgery and procedure market are mainly segmented on the basis of surgical and non-surgical processes.

Plastic Surgery-2020 will comprise leading keynote speakers, session speakers, poster presenters who will be presenting their advanced research on the Plastic Surgery. A variety of companies will display products and services that related to Plastic surgery.

The Europe Plastic surgery and procedure market collected a revenue of \$XX million in 2018. The market is expected to rise with the second highest CAGR of 5.78% over the forecast period of 2019-2027. The most popular destination for the European market includes Germany, France, the United Kingdom, Italy, Spain and Rest of Europe. Italy and
